82 LIVING CRÈCHES - DECEMBER

VARIOUS CITIES

The representation of the Nativity is a moment of intense participation: everybody takes part in the reconstruction of a real village around the Holy Family, evoking the everyday gestures, traditions and crafts of a rural past that has been passed down over the centuries.

For this reason, the crèches are often set in particular places outside the city: the ones of Ispica and Noto are in the Iblean pits, surrounded by caves, rocks and olive trees. Other times they are set in medieval villages or in the streets of the historic districts, as in Caltagirone or Monterosso Almo.
